---

Projects

Car Lending System (University Project)

- Designed and developed a comprehensive car lending system using HTML, CSS, JavaScript, and MySQL.
- Implemented secure user authentication for managing borrower and lender accounts.
- Created a dynamic vehicle catalog with detailed car information and lending requests.
- Integrated a booking management system for car reservations, rental durations, and transaction records.

Network Security Simulation (Class Project)

- Simulated a secure network environment using Cisco Packet Tracer.
- Configured firewalls, VPNs, and intrusion detection systems to safeguard network resources.
- Conducted penetration testing to identify and mitigate security vulnerabilities.

Work Experience

IT Intern/Attachee
Kericho Regional Vet Laboratory, Kericho, Kenya
May 2023 – July 2023

- Assisted in the configuration and maintenance of network systems and servers.
- Provided technical support, resolving hardware and software issues for staff.
- Contributed to data entry tasks on both local and cloud-based systems.

Enumerator
Ministry of Labour and Social Protection, Kenya
October 2024 – November 2024

- Conducted door-to-door data collection for a national survey on social protection programs.
- Accurately recorded household data using digital tools.
- Ensured confidentiality and adherence to ethical guidelines during data collection.

Clerk
Independent Electoral and Boundaries Commission (IEBC), Kenya
August 2022

- Assisted in the organization and management of electoral processes at polling stations.
- Verified voter information and facilitated a smooth voting experience.
- Maintained accurate records and ensured compliance with election guidelines.
